SWOOP DOWN ON CAPITOL

Soldiers Seize Members Who Signed Resolutions of Warning to Huerta as the Result of the Mysterious Disappearance of Senator Dominguez. Troops Patrol Streets in Anticipation of Disorders.

Mexico City, Oct. 11.—One hundred and ten members of the chamber of deputies, who had signed resolutions of warning to President Huerta as the result of the disappearance of Dr. Belisario Dominguez, senator for Chiapas, were arrested and lodged in the penitentiary.

Five other deputies who signed the resolution were absent when a cordon of troops was thrown about the legislative building and several hundred soldiers invaded the chamber.

The arrests followed a demand by President Huerta that the chamber withdraw the resolution, which carried the threat that the deputies would abandon the capitol owing to an alleged lack of guarantees for their personal safety.

Senator Dominguez early in the month made a speech in the senate violently attacking Huerta, saying that not only had nothing been done during Huerta's regime toward the pacification of the country, but that the present situation in the republic was infinitely worse than before.

Declared Famine Threatened.

He said the currency of Mexico had depreciated, fields had been neglected and towns razed and that famine threatened. He added that the situation was due first and foremost to the fact that the Mexican people could not resign themselves to be governed by Huerta.

Before the hour for the regular opening of the session of the chamber the basement and roof of the building had been packed with troops. Scores of police were scattered through the galleries.

When the deputies were in their places Minister of the Interior Manuel Garza Aldape entered the chamber.

Simultaneously several hundred federal troops lined up in front of the chamber. Senor Aldape ascended the platform and read the reply of President Huerta to the resolution warning him of the deputies' intention to dissolve the parliament and hold their sessions elsewhere and demanding an investigation of the disappearance of Senator Dominguez.

Act of Unjustified Aggression.

The reply said that President Huerta could do no less than consider the resolution an act of unjustified aggression and transgression of the rights of the other two powers—the executive and the courts.

When the arrests were made a few of the leaders were placed in automobiles, while the other deputies were taken to the penitentiary in street cars.

Meanwhile similar demands to recant had been made upon members of the senate, who had concurred in the chamber's resolution.

A committee of senators called on President Huerta and signified their willingness to comply with his demands. Later the senators formally withdrew this action.

In anticipation of trouble heavy patrols of troops are on the streets.

The rapid-fire guns which were posted in the interior courts of the palace in February again are in place and quantities of ammunition are at hand.

## SEES NEED OF IRRIGATION

Secretary Lane Favors More Reclamation Work.

Washington, Oct. 11.—"The government could profitably expend in ten years \$100,000,000 in the reclamation of arid, semiarid and swamp lands located in that part of the country west of the Missouri river," Secretary of the Interior Lane said on returning from his extended trip through the West.

"The lands once reclaimed could be divided into farms of from thirty to sixty acres, every one of which would be taken up promptly," Mr. Lane added. "This land practically necessarily must be reclaimed by the government because private reclamation projects generally have proved failures except on small tracts."

## LONG WINTER BEGINS

Five Hundred White Persons and 300 Eskimos Destitute.

Nome, Alaska, Oct. 11.—Snow continues falling and the long subarctic winter has begun. Five hundred white persons and 300 Eskimos are homeless and destitute.

Six hundred houses were destroyed by the recent storm.

Slayer of Anna Aumuller Held for Trial on Murder Charge.

New York, Oct. 11.—Hans Schmidt, confessed slayer of Anna Aumuller, was indicted for murder in the first degree by the grand jury.

## NO ATTEMPT TO HURRY SENATORS

Path Being Smoothed Out for Currency Bill.

SESSION ENDS ON NOV. 30

While the Regular Meeting of Congress Will Take Place on Dec. 1 the Transition Will Not Affect Status of the Measure Before the Senate and It May Come to a Vote in January.

Washington, Oct. 11.—Conservative expressions by Democrats known to be in close sympathy with the administration led to the general belief that the path of the currency bill has been smoothed out, at least for a time.

Apparently there is to be no attempt unduly to hurry the senate in its work.

While President Wilson wants early action on the Glass bill close friends of the administration are making it clear now that they do not draw an arbitrary line at Dec. 1 as the date for its passage.

Senator Hoke Smith of Georgia said the passage of the currency reform bill in January would be as much an administration victory as its enactment in November; and the same view is held by many other senate Democrats.

While the special session of congress will end Nov. 30 and the regular winter session begin Dec. 1 the transition will make no change in the status of the currency bill and will not affect the senate's work upon it.

The senate committee arranged its program of hearings to cover the time up to Oct. 25.

## UNTERMYER FAVORS MEASURE

Says Currency Bill Will Remove Banks' "Strangle Hold."

Boston, Oct. 11.—The fundamental principles of the currency bill were championed by Samuel Untermyer of New York in an address before the Economic club.

Mr. Untermyer said that the bill had "minor defects," but that he favored it "principally because of what it will do toward relaxing the 'strangle hold' of a few men in New York on the money and credits of the country."

"One must have studied the question," he continued, "to realize our imminent perils. I believe we have awakened in time and that this is one of the instruments by which we shall work our way to freedom."

"The true inwardness of the opposition," he said, "was found in the refusal to permit bankers to control the currency system."

## GREAT NORTHERN EARNINGS

Annual Report Shows Big Increase in Revenue.

St. Paul, Oct. 11.—Large increases in earnings from every department of operation are shown in the annual report of the Great Northern railway, just made public. Heavy expenditures for additional equipment, line extension and additional properties also are shown in the report. "There has been invested in the company's property over \$75,000,000 which might have been distributed to the stockholders," says the report.

Gross operating revenues for the year were \$78,692,767.22, an increase of \$12,494,948.23, or 18.7 per cent more than last year. The operating income was \$28,676,258.77, an increase of \$3,513,366.47, or 13.96 per cent over last year. Of the gross operating revenue \$58,426,235.69 was from freight traffic and \$15,158,532.44 from passenger traffic.

## LOST BOY DIES IN STORM

Parties Searching Mountains for Second Lad.

Plains, Mont., Oct. 11.—Two boys, nine and eleven-year-old sons of Alex. Mallatier, wandered from a sheep camp while their father was moving the flock to another range and became lost in a snow storm.

The body of the youngest was found in the snow and parties are searching the mountain forest for the other boy.

## COXEY DEMANDS A HEARING

"General" Wants to Give Views on Currency Bill.

Washington, Oct. 11.—"General" Jacob S. Coxey, once noted as chief of the army of unemployed which marched on Washington in 1894, demanded a hearing on the administration bill before the senate banking committee.

Coxey wanted to tell why he believed the government should operate all the banks in the country.

The Ohio senators assured him it was doubtful that he would be heard and he started back for Massillon, O.

## PREMIER KATSURA.

Noted Jap Statesman Passes Away at Tokio.

## PREMIER KATSURA IS DEAD

Japan's Leading Statesman Stricken at Tokio.

Tokio, Oct. 11.—Prince Taro Katsura, premier of Japan, died here after an extended illness.

The death of Katsura is apt to throw Japan into another political chaos. As premier he headed the government part which has of late become very unpopular with the masses. The agitators against the ruling party made capital out of the California alien land law with which to assail Katsura and their representations became popular with the people. Count Shigenobu Okuma is regarded as Katsura's probable successor.

Count Katsura was born in 1847. He was premier from 1901 to 1906 and again became premier in 1908. He resigned a second time. When a cabinet crisis arose early in 1913 several statesmen declined to take the position, and Katsura was again chosen to form a ministry. From the outset his administration was a stormy one.

## WISCONSIN TOWNS SUFFER FROM STORM

Several Persons Injured and Immense Damage Done.

La Crosse, Wis., Oct. 11.—Four persons were injured, one perhaps mortally, scores of houses were wrecked and telegraph wires for many miles were torn down by an electrical and wind storm that cut a path from Tomah, Wis., to Beloit, Wis.

The damage is beyond estimate and telegraph service is crippled. Mauston, Tomah, Union Center, Hillsboro, Wonewoc, Lavallo, Elroy, Friendship, Arkdale, Beloit and other towns suffered heavily.

The homes of Arthur Jackson and Leonard McCrea near Beloit were demolished and four persons caught under the debris.

Mrs. Jackson was injured so that she may die and the others were severely cut and bruised.

Barns in the city and surrounding country were demolished.

Many miles of trolley and telegraph wires were torn down and interurban service was interrupted.

Tomah was cut off shortly after the storm swept over it. A late report said that the town had been nearly wiped out and that a number of persons had been killed. It could not be verified.

Union Center, south of Elroy, was the scene of a fire which destroyed a large building. The town was cut off from communication. The storm swept almost over the town. Mauston reported that damage to buildings is about \$200,000.

Many reports told of the killing of cattle and the destruction of barns and damaging of farm houses.

## MILITANTS ATTACK DOCTORS

Forcible Feeding Decision Causes Women to Take Vengeance.

London, Oct. 11.—Doctors of London have been made the first victims of the vengeance of the militant suffragettes, whose anger has been aroused by the decision of the home secretary to resume forcible feeding of hunger strikers.

A band of women raided Harley street in the west end of London, a district which is almost entirely occupied by the offices of medical specialists. The women smashed windows right and left all along the street.

## TICKET SELLER HELD.

New York, Oct. 11.—Richard J. Donovan, a ticket seller at the Madison square gardens, was held in \$500 bail for trial after his arraignment on a charge of disposing of 100 unreserved world's series tickets to a speculator. Technically he is charged with violating the anti-tipping law in that it is alleged that he received a hundred dollars bonus.

## NAME LEADER FOR HOUSE MAJORITY

Contest For Underwood's Place to Be Exciting.

AUTHOR TALKS OF TARIFF.

Expresses Opinion That New Bill Will Remain on Statute Books For Long Time—Predicts Next Change Will Be Further Downward Revision. Gives His Reasons For Beliefs.

By ARTHUR W. DUNN.

Washington, Oct. 11.—[Special.]—Not long after the final stages of the tariff bill Oscar W. Underwood and A. Mitchell Palmer were in close consultation. Those who saw them believed that, so far as possible, leadership in the house was being settled.

The man who had steered a tariff bill through all the perils and pitfalls that beset such measures does not expect to continue as leader. He will go to the senate or will go out of congress. He cannot run for the senate and the house at the same time, so it means that he will leave the house, no matter what may be his future.

Law to Remain Long Time.

"Unless there are hard times this bill will remain on the statute books a great many years," remarked Mr. Underwood. "But even when the time comes to make changes they will find it right hard to restore articles to the dutiable list now on the free list. We have put so many articles on the free list that they will have a tendency to keep down rates of duty, and in the future the fellows on the free list will make an effort to have that list enlarged. The tendency will be in the direction of lower duties and an enlarged free list, in my opinion."

The New Leader.

While some people think it is as good as settled that Palmer will be the next chairman of the ways and means committee and become thereby the leader, it is doubtful whether he can get the place without a contest, although he is believed to have the active support of President Wilson. Moreover, the argument is being made that it will be a good thing to have a northern man for the Democratic leader. Southerners are somewhat resentful at that suggestion, but even in the Democratic party there is a sectional feeling. Mason and Dixon's line still exists.

"The Last Ditch."

The fight which Senator Penrose made on the tariff bill was something like a "last ditch" affair. "Better stick around," he said to Brandegee of Connecticut. "We may want you to raise some objections." Then he began something like a filibuster, although it turned out that he was really having fun with the Democrats and incidentally making capital for Penrose in the campaign that is coming in Pennsylvania.

When to Surrender.

This conference report is a farce," declared Penrose. "Here we are agreeing to hundreds of items without knowing anything about them. There was never anything like this in the history of the United States senate."

"The same thing has been done over and over again," replied Chairman Simmons, "whenever appropriation bills are considered."

"We all know how we surrender our prerogatives when appropriations are involved," truthfully retorted Penrose. "The old tag and an appropriation" always have a large majority.

Stopping the Stop Watch.

Congressman Detrick of Massachusetts has introduced a bill to prevent the use of the stop watch in measuring the services of government employees. Years ago a department of the government established a time checking device by which every employee had his every minute checked off on a card. Congress stopped that by a provision in an appropriation bill, but it seems that a stop watch system has been placed in shops and other places where labor is employed. Detrick intends to stop the stop watch.

The Point of View.

Long speeches were made by Senators Bristow and Poinsett explaining their votes on the tariff bill. The Kansas senator had to answer criticisms as to why he voted against the bill, and the Washington senator had to explain why he voted for the bill. Both senators were almost in accord in their criticisms of the bill—that it was against the agricultural producer—but Bristow thought it was worse than the Payne-Aldrich law, and Poinsett thought it was better. It all depends upon the point of view.

Owen's Opinion.

One day during the hearings on the currency bill only one senator was present while a witness was giving his views. Chairman Owen was just entering the room and was asked:

"Are you 'running empty' as they say in the west?"

"It's blamed nonsense, killing time," replied the Oklahoma senator.

"Two Bells."

Those two rings which are heard so frequently these days are known as "two bells" in the senate and means that the point of no return has been made. The bells ring in all the committee rooms and everywhere about the senate where senators congregate or where they hibernate.

## ATHLETICS SECURE FOURTH

Need One More Game to Win Championship.

Philadelphia, Oct. 11.—But one victory stands between the Philadelphia Athletics and the world's championship in baseball, for the Mackmen defeated the New York Giants at Shibe park by 6 to 5 in the fourth game of the titular series.

Before the contest was clinched, however, 20,000 Quaker City fans suffered a period of anxious suspense that will keep the Giants' eleventh-hour hating rally green in their memory for some seasons to come. Score by innings:

New York . . . 0 0 0 0 0 3 2 0—5 8 2

## MAY SOLVE MYSTERY OF BOMB EXPLOSIONS

Wholesale Arrests to Follow Alleged Confessions.

New York, Oct. 11.—The mystery of more than a hundred bomb explosions that have occurred in this city during the last year is near a solution, the police believe, as the result of the confessions of four men in jail at Hacksack, N. J., their statements leading to the arrest here of two men charged with setting off explosives in front of an East Side tenement on Sept. 9.

The accused men, Pietro Gamboni and Antonio Leventino, were held in heavy bail for a hearing.

The confessions of the men in Hacksack led to further arrests, two being apprehended on the charge of extortion and two others as counterfeits.

Captain Henry of the United States secret service took charge of the alleged counterfeiters and after a brief investigation one man was arrested in Brooklyn and seven in Troy, N. Y., charged with having counterfeit money in their possession.

Confessions obtained, according to Commissioner Dougherty, implicate about forty foreigners.

## GOTHAM STAGE IS TOO LOW

English Company Cancels Its Dates for New York.

New York, Oct. 11.—The tastes of New York playgoers have become so terribly wicked and the stage of this city has fallen so low that the board of governors of Shakespeare Memorial Theatre of England has forbidden the Stratford-on-Avon players to appear here at all, and using the cable to make the command more imperative, has canceled all the dates which the organization has secured for New York.

Chicago, St. Louis and San Francisco are not in the class with New York, according to the governors of the first American tour of the English aggregation, and will be permitted to look upon Shakespeare as it should be played.

## BOLTS PANKHURST MEETING

Dr. Anna Howard Shaw Cancels Speaking Date.

New York, Oct. 11.—Dr. Anna Howard Shaw, president of the National Woman Suffrage association, canceled her engagement to speak at the meeting arranged to welcome Mrs. Emmeline Pankhurst, the militant English leader, here next week.

Dr. Shaw said her unwillingness to speak was due to the fact that while Mrs. Pankhurst had been guaranteed \$1,500 and part of the gate receipts she (Dr. Shaw) had been unable to procure a guarantee of \$1,000 for her cause.

## TAKES RECESS UNTIL MONDAY

### TWO KILLED BY LIGHTNING

Another Man Injured and Nine Horses Cremated.

Minot, N. D., Oct. 11.—Two men were killed, a third was injured and nine horses were killed and their bodies cremated when lightning hit a barn on the John Engbreton farm near Berthold. The dead were James Engbreton, sixteen years old, and Peter Nelson, a farm laborer. The farm owner was stunned, but was revived by his wife, whose attention was attracted to the barn by flames which swept out of the hayloft.

At Northwood the schoolhouse was hit by lightning, while the James Edwards home, near that city, was practically demolished by lightning.

### BRITISH OPIUM MONOPOLY

Government to Control Traffic at Hongkong.

Hongkong, Oct. 11.—The British government has decided to establish an opium monopoly in Hongkong at the expiration of the present agreement.

It is thought that with the control of the traffic in the hands of the government its gradual suppression will be easier.

The staff and appliances of the farmers are to be taken over in entirety.

### APPROVES DANIELS' SCHEME

Nebraska Pledges Support for Government Armor Factory.

Washington, Oct. 11.—Maintaining that investigation into armor plate expenditures had enabled the government to know without a doubt that it is being systematically robbed by the steel trust R. E. Barton, representative of Nebraska, pledged support in the house to Secretary of Navy Daniels' plan to establish a government armor plate factory.

## Counsel Completes Arguments in Sulzer Trial.

## GLAMOR FOR OPEN SESSION

People Generally Objecting to Final Sitting in Executive Session and This Question Will Be Taken Up When Court Reconvenes—Verdict Is Looked for by Monday Evening.

Albany, N. Y., Oct. 11.—Governor William Sulzer's fate rests with his judges.

The final arguments of counsel for and against him were delivered before the high court of impeachment. Immediately thereafter the court adjourned until Monday at 2:30 p. m.

Upon reconvening the court will decide upon its plan of balloting, whether it shall be done in open court or in executive session, and then take up the constitutional objections to the impeachment charges that have been raised by counsel for the governor.

If the judges hold adversely in whole or in part to the contentions of Sulzer's counsel a vote on his guilt or innocence will follow.

The next question to be decided will be whether he should be removed from office.

Should this be decided affirmatively the judges then will vote on whether additional punishment, disqualification from ever holding public office in this state again, shall be meted out to him.

A decision of his fitness to continue in office will be reached on Monday night, it is generally believed. But there doubtless will be much discussion among the judges and many votes preceded by long explanations.

Popular demand is for an open session of the court. No record has been kept of the proceedings of the few executive sessions which have been held and this has aroused much criticism.

## COXEY DEMANDS A HEARING

"General" Wants to Give Views on Currency Bill.

Washington, Oct. 11.—"General" Jacob S. Coxey, once noted as chief of the army of unemployed which marched on Washington in 1894, demanded a hearing on the administration bill before the senate banking committee.

Coxey wanted to tell why he believed the government should operate all the banks in the country.

The Ohio senators assured him it was doubtful that he would be heard and he started back for Massillon, O.

## PREMIER KATSURA.

Noted Jap Statesman  
Passes Away at Tokio.

## PREMIER KATSURA IS DEAD

Japan's Leading Statesman Stricken at Tokio.

Tokio, Oct. 11.—Prince Taro Katsura, premier of Japan, died here after an extended illness.

The death of Katsura is apt to throw Japan into another political chaos. As premier he headed the government part which has of late become very unpopular with the masses. The agitators against the ruling party made capital out of the California alien land law with which to assail Katsura and their representations became popular with the people. Count Shigenobu Okuma is regarded as Katsura's probable successor.

Count Katsura was born in 1847. He was premier from 1901 to 1906 and again became premier in 1908. He resigned a second time. When a cabinet crisis arose early in 1913 several statesmen declined to take the position, and Katsura was again chosen to form a ministry. From the outset his administration was a stormy one.

WISCONSIN TOWNS  
SUFFER FROM STORMSeveral Persons Injured and  
Immense Damage Done.

La Crosse, Wis., Oct. 11.—Four persons were injured, one perhaps mortally, scores of houses were wrecked and telegraph wires for many miles were torn down by an electrical and wind storm that cut a path from Tohamb, Wis., to Beloit, Wis.

The damage is beyond estimate and telegraph service is crippled.

Mauston, Wis., Union Center, Hillsboro, Waukesha, Lavallo, Elroy, Friendship, Arkdale, Beloit and other towns suffered heavily.

The homes of Arthur Jackson and Leonard McCrea near Beloit were demolished and four persons caught under the debris.

Mrs. Jackson was injured so that she may die and the others were severely cut and bruised.

Barns in the city and surrounding country were demolished.

Many miles of trolley and telegraph wires were torn down and interurban service was interrupted.

Tomah was cut off shortly after the storm swept over it. A late report said that the town had been nearly wiped out and that a number of persons had been killed. It could not be verified.

Union Center, south of Elroy, was the worst of the storm appeared to move about five miles south of the village.

Union Center, south of Elroy, was cut off from communication. The storm swept almost over the town.

Mauston reported that damage to buildings is about \$200,000.

Many reports tell of the killing of cattle and the destruction of barns and damaging of farm houses.

## MILITANTS ATTACK DOCTORS

Forceful Feeding Decision Causes  
Women to Take Vengeance.

London, Oct. 11.—Doctors of London have been made the first victims of the vengeance of the militant suffragettes, whose anger has been aroused by the decision of the home secretary to resume forcible feeding of hunger strikers.

A band of women raided Harley street in the west end of London, a district which is almost entirely occupied by the offices of medical specialists. The women smashed windows right and left all along the street.

## TICKET SELLER HELD.

New York, Oct. 11.—Richard J. Donovan, a ticket seller at the Madison square gardens, was held in a \$500 bail for trial after his arraignment on a charge of disposing of 100 unreserved world's series tickets to a speculator. Technically he is charged with violating the anti-tipping law in that it is alleged that he received a hundred dollars bonus.

NAME LEADER FOR  
HOUSE MAJORITYContest For Underwood's Place  
to Be Exciting.

AUTHOR TALKS OF TARIFF.

Expresses Opinion That New Bill Will Remain on Statute Books For Long Time—Predicts Next Change Will Be Further Downward Revision. Gives His Reasons For Beliefs.

By ARTHUR W. DUNN.

Washington, Oct. 11.—[Special.]—Not long after the final stages of the tariff bill Oscar W. Underwood and A. Mitchell Palmer were in close consultation. Those who saw them believed that, so far as possible, leadership in the house was being settled.

The man who had steered a tariff bill through all the perils and pitfalls that beset such measures does not expect to continue as leader. He will go to the senate or will go out of congress. He cannot run for the senate and the house at the same time, so it means that he will leave the house, no matter what may be his future.

Law to Remain Long Time.

"Unless there are hard times this bill will remain on the statute books a great many years," remarked Mr. Underwood. "But even when the time comes to make changes they will find it right hard to restore articles to the dutiable list now on the free list. We have put so many articles on the free list that they will have a tendency to keep down rates of duty, and in the future the fellows on the free list will make an effort to have that list enlarged. The tendency will be in the direction of lower duties and an enlarged free list, in my opinion."

The New Leader.

While some people think it is as good as settled that Palmer will be the next chairman of the ways and means committee and become thereby the leader, it is doubtful whether he can get the place without a contest, although he is believed to have the active support of President Wilson. Moreover, the argument is being made that it will be a good thing to have a northern man for the Democratic leader. Southerners are somewhat resentful at that suggestion, but even in the Democratic party there is a sectional feeling. Mason and Dixon's line still exists.

"The Last Ditch."

The fight which Senator Penrose made on the tariff bill was something like a "last ditch" affair. "Better stick around," he said to Brandegee of Connecticut. "We may want you to raise some objections." Then he began something like a filibuster, although it turned out that he was really having fun with the Democrats and incidentally making capital for Penrose in the campaign that is coming in Pennsylvania.

When to Surrender.

"This conference report is a farce," declared Penrose. "Here we are agreeing to hundreds of items without knowing anything about them. There was never anything like this in the history of the United States senate."

"The same thing has been done over and over again," replied Chairman Simmons, "whenever appropriation bills are considered."

"We all know how we surrender our prerogatives when appropriations are involved," truthfully retorted Penrose. "The old flag and an appropriation" always have a large majority.

Stopping the Stop Watch.

Congressman Deitrick of Massachusetts has introduced a bill to prevent the use of the stop watch in measuring the services of government employees. Years ago a department of the government established a time checking device by which every employee had his every minute checked off on a card. Congress stopped that by a provision in an appropriation bill, but it seems that a stop watch system has been placed in shops and other places where labor is employed. Deitrick intends to stop the stop watch.

The Point of View.

Long speeches were made by Senators Bristow and Poinchexter explaining their votes on the tariff bill. The Kansas senator had to answer criticisms as to why he voted against the bill, and the Washington senator had to explain why he voted for the bill. Both senators were almost in accord in their criticisms of the bill—that it was against the agricultural producer, but Bristow thought it was worse than the Payne-Aldrich law, and Poinchexter thought it was better. It all depends upon the point of view.

Owen's Opinion.

One day during the hearings on the currency bill only one senator was present while a witness was giving his views. Chairman Owen was just entering the room and was asked:

"Are you 'running empty' as they say in the west?"

"It's blamed nonsense, killing time," replied the Oklahoma senator.

"Two Bells."

Those two rings which are heard so frequently these days are known as "two bells" in the senate and means that the point of no return has been made. The bells ring in all the committee rooms and everywhere about the senate where senators congregate or where they hibernate.

Need One More Game to Win Championship.

Philadelphia, Oct. 11.—But one victory stands between the Philadelphia Athletics and the world's championship in baseball, for the Mackmen defeated the New York Giants at Shibe park 6 to 5 in the fourth game of the titular series.

Before the contest was clinched, however, 20,000 Quaker City fans suffered a period of anxious suspense that will keep the Giants' eleventh-hour batting rally green in their memory for some seasons to come. Score by innings:

MAY SOLVE MYSTERY  
OF BOMB EXPLOSIONSWholesale Arrests to Follow  
Alleged Confessions.

New York, Oct. 11.—The mystery of more than a hundred bomb explosions that have occurred in this city during the last year is near a solution, the police believe, as the result of the confessions of four men in jail at Hacksack, N. J., their statements leading to the arrest here of two men charged with setting off explosives in front of an East Side tenement on Sept. 9.

The accused men, Pietro Gamboni and Antonio Leventino, were held in heavy bail for a hearing.

The confessions of the men in Hacksack led to further arrests, two being apprehended on the charge of extortion and two others as counterfeits.

Captain Henry of the United States secret service took charge of the alleged counterfeiters and after a brief investigation one man was arrested in Brooklyn and seven in Troy, N. Y., charged with having counterfeit money in their possession.

Confessions obtained, according to Commissioner Dougherty, implicate about forty foreigners.

## GOTHAM STAGE IS TOO LOW

English Company Cancels Its Dates for New York.

New York, Oct. 11.—The tastes of New York playgoers have become so terribly wicked and the stage of this city has fallen so low that the board of governors of Shakespeare Memorial theatre of England has forbidden the Stratford-on-Avon players to appear here at all, and using the cable to make the command more imperative, has canceled all the dates which the organization has secured for New York.

Chicago, St. Louis and San Francisco are not in the class with New York, according to the governors of the first American tour of the English aggregation, and will be permitted to look upon Shakespeare as it should be played.

## BOLTS PANKHURST MEETING

Dr. Anna Howard Shaw Cancels Speaking Date.

New York, Oct. 11.—Dr. Anna Howard Shaw, president of the National Woman Suffrage association, canceled her engagement to speak at the meeting arranged to welcome Mrs. Emmeline Pankhurst, the militant English leader, here next week.

Dr. Shaw said her unwillingness to speak was due to the fact that while Mrs. Pankhurst had been guaranteed \$1,500 and part of the gate receipts she (Dr. Shaw) had been unable to procure a guarantee of \$1,000 for her cause.

## TWO KILLED BY LIGHTNING

Another Man Injured and Nine Horses Cremated.

Minot, N. D., Oct. 11.—Two men were killed, a third was injured and nine horses were killed and their bodies cremated when lightning hit a barn on the John Engebretson farm near Berthold. The dead were James Engebretson, sixteen years old, and Peter Nelson, a farm laborer. The farm owner was stunned, but was revived by his wife, whose attention was attracted to the barn by flames which swept out of the hayloft.

At Northwood the schoolhouse was hit by lightning, while the James Edwards home, near that city, was practically demolished by lightning.

## BRITISH OPIUM MONOPOLY

Government to Control Traffic at Hongkong.

Hongkong, Oct. 11.—The British government has decided to establish an opium monopoly in Hongkong at the expiration of the present agreement.

It is thought that with the control of the traffic in the hands of the government its gradual suppression will be easier.

The staff and appliances of the farmers are to be taken over in entirety.

Counsel Completes Arguments  
in Sulzer Trial.

## CLAMOR FOR OPEN SESSION

People Generally Objecting to Final Sitting in Executive Session and This Question Will Be Taken Up When Court Reconvenes—Verdict Is Looked for by Monday Evening.

Albany, N. Y., Oct. 11.—Governor William Sulzer's fate rests with his judges.

The final arguments of counsel for and against him were delivered before the high court of impeachment. Immediately thereafter the court adjourned until Monday at 2:30 p. m.

Upon reconvening the court will decide upon its plan of balloting, whether it shall be done in open court or in executive session, and then take up the constitutional objections to the impeachment charges that have been raised by counsel for the governor.

If the judges hold adversely in whole or in part to the contentions of Sulzer's counsel a vote on his guilt or innocence will follow.

The next question to be decided will be whether he should be removed from office.

Should this be decided affirmatively the judges then will vote on whether additional punishment, disqualification from ever holding public office in this state again, shall be meted out to him.

A decision of his fitness to continue in office will be reached on Monday night, it is generally believed. But there doubtless will be much discussion among the judges and many votes preceded by long explanations.

Popular demand is for an open session of the court. No record has been kept of the proceedings of the few executive sessions which have been held and this has aroused much criticism.

OH! SEE THAT WINDOW

**The Beethoven Trio**  
In spite of other musical attractions last night and that there was no canvass for the sale of tickets the members of the musical club were gratified to find Elks hall well filled in appreciation of the Beethoven Trio. The promise of the press committee of an unusually high grade musical entertainment might rouse the curiosity to know of the artists fulfilled it in a technical measure. Perhaps the artists among us refuse such a critique from a sense of fellow ship—be it as it may this must be only an article in appreciation or a bit of ancient philosophy perhaps.  
We like what we like, but we know what we like is such a true index of our fire, we may indulge in platitudes to hide the truth, if we fall short in appreciation.  
Happily, stringed instruments appeal to men in general. Most of us find very simple rendering upon a violin enjoyable if it be earnestly and lovingly given. In how much greater measure did we take delight in these finished productions on violin, violoncello and piano sustaining them!

The atmosphere of the program was meditative—you felt keenly that our friends loved these fine stringed instruments as they coaxed sweet harmonies from mere strings with caressing fingers, and the reflections borne on such sacred themes might well be in any of us. On the things that lie deep within us—some times dormant until roused by a master's touch would we not need to consider ourselves seriously if such a Beethoven—Mendelssohn—Arensky program did not rouse in us a certain unrest and a stronger desire to fulfill our ideals? Such mood was reflected in many faces last night. Like a real little girl who commented recently on one of Miss Alcott's purposeful girl stories—"It made me feel sad and want to be a better girl." This is the point to which we are coming. No Beethoven or Mendelssohn theme can stir the senses exquisitely or rouse deep thoughts if the artistic instincts have been outraged and the fine natural love of harmony borne in us has been set at variance by an indulgence in cheap music. It is true that an unspoiled child will choose simple, sweet harmonies in dignified chords and call them beautiful while cheap jangle and jingle we sometimes think appropriate for children and young people will meet with distressed tolerance. I have said this beautiful program made us reflect. We were old who were there. What in our city is being provided for those who are young? In our churches, our schools, our places of amusement what is the dominating spirit of the music? The fairy down may never be replaced when it has been ruthlessly brushed from the butterfly's wing; the tender bloom can never be returned to the carelessly trampled wood flower so precious as the fairest and most beautiful of God's gifts is this ability to allow what is truly fine in any art to enrapture us.  
He who runs may read. Let us have the best, never because it is high in price, but because it is priceless. We were stirred to enthusiasm one and all by "O'Carra Memoria" and the encore (Cello) "Lullaby" written by Oscar Brueckner, brother of the visiting artist, Carl Brueckner. We felt, too, the fine generosity of these two artists. Mr. Otto Roehrborn at the piano—supporting each the other—personal achievement in the background, that the beautiful themes might be impressed.  
More than the calling for encores, the deep silences when the bow rests a moment to throw itself into finer harmonies—those silences were the best tribute to the player and the surest index of our appreciative audience. Not brilliant or exciting—this orchestral harmony left a clear memory in each of us that will bring tranquility to master what the coming day brings; a finer discernment of the things worth while because we rose into the realms of master's dreams.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Catarrh Pills for constipation.

### The Beethoven Trio

In spite of other musical attractions last night and that there was no canvass for the sale of tickets the members of the musical club were gratified to find Elks hall well filled in appreciation of the Beethoven Trio. The promise of the press committee of an unusually high grade musical entertainment might rouse the curiosity to know of the artists' fulfilled it in a technical measure. Perhaps the artists among us refuse such a critique from a sense of fellow ship—be it as it may this must be only an article in appreciation or a bit of ancient philosophy perhaps.

We like what we like, but we know what we like is such a true index of our fire, we may indulge in platitudes to hide the truth, if we fall short in appreciation.

Happily, stringed instruments appeal to men in general. Most of us find very simple rendering upon a violin enjoyable if it be earnestly and lovingly given. In how much greater measure did we take delight in these finished productions on violin, violoncello and piano sustaining them!

The atmosphere of the program was meditative—you felt keenly that our friends loved these fine stringed instruments as they coaxed sweet harmonies from mere strings with caressing fingers, and the reflections borne on such sacred themes might well be in any of us. On the things that lie deep within us—some times dormant until roused by a master's touch would we not need to consider ourselves seriously if such a Beethoven—Mendelssohn—Arensky program did not rouse in us a certain unrest and a stronger desire to fulfill our ideals? Such mood was reflected in many faces last night. Like a real little girl who commented recently on one of Miss Alcott's purposeful girl stories—"It made me feel sad and want to be a better girl." This is the point to which we are coming. No Beethoven or Mendelssohn theme can stir the senses exquisitely or rouse deep thoughts if the artistic instincts have been outraged and the fine natural love of harmony borne in us has been set at variance by an indulgence in cheap music. It is true that an unspooled child will choose simple, sweet harmonies in dignified chords and call them beautiful while cheap jangle and jingle we sometimes think appropriate for children and young people will meet with distressed tolerance. I have said this beautiful program made us reflect. We were often who were there. What in our city is being provided for those who are young? In our churches, our schools, our places of amusement what is the dominating spirit of the music? The fairy down may never be replaced when it has been ruthlessly brushed from the butterfly's wing; the tender bloom can never be returned to the carelessly trampled wood flower so precious as the frailest and most beautiful of God's gifts is this ability to allow what is truly fine in any art to enrapture us.

He who runs may read. Let us have the best, never because it is high in price, but because it is priceless. We were stirred to enthusiasm one and all by "O'Carra Memoria" and the encore (Cello) "Lullaby" written by Oscar Brueckner, brother of the visiting artist, Carl Brueckner. We felt, too, the fine generosity of these two artists. Mr. Otto Roehrborn at the piano—supporting each the other—personal achievement in the background, that the beautiful themes might be impressed.

More than the calling for encores, the deep silences when the bow rests a moment to throw itself into finer harmonies—those silences were the best tribute to the player and the surest index of our appreciative audience. Not brilliant or exciting—this orchestral harmony left a clear memory in each of us that will bring tranquility to master what the coming day brings; a finer discernment of the things worth while because we rose into the realms of master's dreams.

It will be rally day in the Bible school and a record breaking attendance is expected. The Epworth league will meet as usual at 6:45 o'clock. The public is cordially invited to attend these services.

First Baptist church—The annual Rally Day service will be held beginning at 9:45 A. M. The Sunday school and church will be combined in one great service. An orchestra of ten pieces led by S. V. Long will help furnish the music. Every member of the church, Sunday school, Home Department or Cradle Roll is urged to be present. Visitors are cordially invited. A program of musical interest has been prepared. Two objectives have been set, an attendance of 200 and a missionary offering of \$25.00. Come and help us reach the goal.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. ## COMMENT ON BUSH'S GAME

Superior Telegram Says Bush Saw His First League Game After Joining the Athletics

### USED HIS HEAD WHEN PITCHING

Bush Was the "Dark Horse" Which Connie Mack Kept Under Cover for Six Weeks

It is interesting to read the comment about Leslie Bush in many of the papers. The Superior Telegram, always a good friend of Bush, has been running his picture. Its edition Thursday had a big headline across the front page, "Connie Mack's Dark Horse Beats New York Giants." A short sketch of Bush precedes the game as follows: "Leslie Bush, the 'dark horse' pitcher picked by Connie Mack to pull the Athletics out of the hole they apparently were in when Eddie Plank was used up yesterday, is a Brainerd, Minn., boy and many Superior visitors to the Cuyuna range have seen him work. Until last year he twirled for his home town and for Missoula in Montana. He was signed by Connie Mack last fall and joined the club this spring. He saw his first big league game after joining the American league champions."

The St. Paul Dispatch heads its extra, "Joe Bush Pitches a Sparkling Game, Defeating Giants;" Minnesota boy wins world's series glory by holding McGraw's men down. In the third inning Bush settled down and the crowd applauded him for his fine work.

The Duluth Herald says Bush pitched a fine game while Tesreau was pounded hard. The announcement that Bush would pitch caused hundreds to murmur in the stands: "This is the pitcher that Connie Mack has kept under cover for the last six weeks in order to use him in the world's series." Ira Thomas, the Athletics' catcher, said that Bush had a world of speed and a fine breaking curve when he warmed up.

### A PROPHET VINDICATED

Bruce, Sporting Editor of Duluth Herald, Admits Hoffbauer's View of Bush Correct

In August of last year Hoffbauer of the Brainerd Dispatch, predicted that Bush would be a mainstay of the Athletics and that with his sand and nerve the boy could be depended on in a crisis. The Dispatch of August 21 states: "On the Philadelphia Athletics there will soon be two Brainerd pitchers. The noted Bender, Chippewa Indian, who was born and raised in Brainerd, the man who piloted the Athletics through last year's championship series, will later be joined by Bush. The Brainerd boy will put Brainerd on the national baseball map because he does not forget the town where he was born and raised. The folks at home will watch the bulletin board and buy the extras whenever Connie Mack trots out Bush to pitch in the pinches and the kid who saved the Highlanders (Missoula) on innumerable occasions will do the same for the Athletics."

Additional praise of Bush was sent to the Herald and Bruce came back with this criticism: "From Brainerd come words regarding the advent in the royal purple of baseball regalia of Leslie Bush, the lad who started life and several other incidents in this important event, in said Brainerd. Up there they believe that the lad is destined to become greater than Joe Wood or Walter Johnson, because the sagacious scout who uncovered him, says so. 'Please wait, citizens of Brainerd, before permitting this hope to become so large and ably bodied that it will stalk around and sit up on its hind legs whenever given the least coaxing. 'Walt Johnson is quite a pitcher, and while Little Leslie will, we hope with you, become one of the shining adornments of the rubber, he may have to go along for some space yet before he will be stealing three or four perfectly good columns every sweet summer day from the irate advertising department.' That was over a year ago Bruce (Continued on page 4)

### OUR COMPLIMENTS TO BRAINERD

We congratulate Brainerd upon its brilliant and ambition-satisfying location upon the sporting map of the world. The poets have vied in the endeavor to convince us that "good wine needs no bush," and there is something about the fear that "each bush" inspires in certain criminals, but Brainerd is far and above such trivialities. The Bush of its adoration is of another growth. It burns its tar barrels and sings its peans of victory in honor of the hero of the third of the world's championship series. There may be other games and other heroes, but the immortality of "Our Joe" is definite. We humbly beg Brainerd to remember that it is in Minnesota, and to permit us all to sun ourselves in the glory reflected from it. ## DEVELOPMENTS OF WEEK ON RANGE

Attention Continues to be Centered on the South Range—Barrows Mine Shipping

### BRAINERD-CUYUNA PROGRESS

Exploration Work Near Brainerd Given Impetus—Range Shipments at Least 900,000 Tons

Attention continues to be centered on the south range of the Cuyuna iron range. Shipments from the Barrows mine of the Virginia Ore Mining Co., of the M. A. Hanna Co. now total 24 cars. Ore from the drill records gave 55 per cent averages while the mining shows the ore to run 59 per cent and better. J. D. Ireland, general manager of the M. A. Hanna Co., R. S. Walker, chief mechanical engineer of Duluth and C. E. Hendricks inspected the mine on Wednesday and were well satisfied with the progress made under the direction of the superintendent, W. J. Nicholas. The loading of ore was first commenced on September 27. About 200 tons a day are being hoisted from the shaft. The Prescott triple expansion pump of 3,000 gallons capacity will be in operation in the next three or four days. The laundry is well under way and will be completed in about ten days. When finished, the old laundry will be removed from the Northern Pacific railway right of way and the watchman patrolling the tracks will be called in.

On the day of the first shipment R. R. Wise of Brainerd and Wm. C. White of Deerwood, fee owners of the Barrows mine, tendered the mining officials a banquet at the Ransford hotel. Supt. Nicholas, Capt. Tallon and Messrs. Clark, McGee and Richards were the guests of honor. Supt. Nicholas was asked to make a short address and he stated that the co-operation of the men had made it possible for him to free from water a mine which had been drowned for four months. In 14 days after the time Supt. Nicholas took hold of the Barrows mine the water was out of the shaft and mining had been resumed, and he had used nothing but the old equipment and a big road engine that the Northern Pacific railway loaned him to keep up steam of his feed water pumps.

The Shenango Furnace Co. people had representatives on the grounds at Barrows this week inspecting their holdings in section 16 near the Northern Pacific railway depot. It is rumored that the company will start sinking a shaft at the southeast village limits of Barrows.

The Brainerd-Cuyuna Mining Co. shaft in Brainerd is now down 30 feet. A 150 horsepower boiler was unloaded Thursday. The foundation for the engine house has been completed and work started on the structure. In 30 days Capt. Martin will have steam up and the whistle blowing. The crew of nine will be largely increased next month. Citizens of Brainerd are subscribing liberally to stock.

The Northwestern Iron & Land Co., of which Erick Kronberg is president, George H. Gardner secretary-treasurer and H. H. Baker vice president, has lands on the north and south ranges. A drill will soon be placed on the south range in Oak Lawn township east of Brainerd.

Erick Kronberg and John A. Erickson, chairman of the board of county commissioners, have large holdings on the south range and are expected to have some of their lands explored under lease.

A line of attraction has been found to extend over section 18, township 44, range 30 on lands owned by William Gildart and John A. Hoffbauer on the south range. It is understood that several owners of small tracts will combine and have four ten-acre tracts near Brainerd explored.

The Cuyuna Range addition lying east of the Northern Pacific railway shops is to be drilled.

On the north range the Rogers, Brown Ore Co. and the majority of the mining companies have availed themselves of the workmen's compensation act.

The total shipments of the Rogers, Brown Ore Co. properties for 1913 will total over 600,000 tons, said Supt. H. J. Kruse, of Crosby, and he estimates the total Cuyuna range shipments for the year to be well up to 900,000 tons.

The Armour No. 2 mine at Crosby is stockpiling and may ship some more before the season closes. They are hoisting on an average 1,000 tons daily.

The Kennedy mine at Cuyuna is shipping from the shaft and hoisting about 1,000 tons daily. Capt. Wm. Treloar, formerly with the Armour No. 1 at Crosby, is now in charge of the Adams mine at Oreland. The Adams mine has all its machinery installed and after doing some more drifting will be able to hoist and may make small shipments before the season closes. The mine will stockpile in the winter.

The Inland Steel Co. Thompson mine is stripping with two shovels, a day and night crew operating. From estimates made by mining men, it is believed the Thompson shipped between 35,000 and 40,000 tons this season.

The Meacham is expected to enter the shipping lists next season. The mine has never been worked and water was allowed to fill the shaft un-

## 200 LOSE LIVES IN BURNING LINER

Special to Dispatch:

New York, Oct. 11—Facing fire and a ranging storm in mid-Atlantic Thursday, the liner Volturno was destroyed on her voyage from Rotterdam to New York with a loss of more than 200 lives. Again the wireless played a leading part in this drama of the sea. By its means and through the heroism of the crews of ten vessels who responded to the call, the lives of 521 of those on board were saved.

til mining conditions were more suitable and the ground was better drained.

The total shipments of the Pennington pit mine west of Ironton and Crosby will run close to 100,000 tons this season. Stripping has been nearly finished, the shovel being engaged in this work and one shovel being in the ore. It is expected that some stripping will be done in the winter.

The Rowe mine will strip in the winter and in 1914 will ship an enormous tonnage, enough to keep two blast furnaces in Pittsburgh busy. It is expected that there will be a cut in ore prices in 1914.

The Rogers, Brown Ore Co. will in the next few days make its contracts for next season's delivery.

The Federal property at Cuyuna will soon have a shaft sunk on it by the Cuyuna-Duluth Iron Co.

The Cuyuna-Mille Laes mine is filling its 10,000 tons order for the Cleveland-Cliffs company. The mine is working well and steps are being taken to increase its production.

The Cuyuna-Duluth mine at Ironton is shipping constantly and working well, no water or other trouble bothering them. E. J. W. Donahue says the mine company had been approached on the subject of converting their underground mine to a pit mine, but doubted if such a course would be pursued.

The Duluth-Brainerd mine has its boiler in position and shaft-sinking is well under way. The Northern Pacific railway will soon build a line to the property, being an extension from the Cuyuna-Mille Laes mine.

The Northern Pacific railway is getting active in railway building on the north and south ranges and shows the commendable disposition of meeting mine operators half way and putting in a line to assist them at the very start of mine operations.

In the way of transfers, twenty quitclaims were filed conveying twenty-fourth and some twelfth interests in the east half of the northeast quarter of section 6, township 133, range 28 to the Northwestern Cuyuna Mining Co., the grantors being Charles Anderson, August Anderson, Nels Anderson, Ole Bergstrom, Erick Carlson, John Colbroth, G. T. Eagling, Carl A. Erickson, C. J. Evensta, Alex. Jensen, F. A. Kemp, Charles A. Lanigan, George R. Laybourn of Duluth, Charles P. Meyers of Duluth, Terrence F. Naughton, Henry Nelson, John O. Martin, Chas. C. Jones, Iver M. Olson, E. J. Rourke, Jacob Stein and Harvey Toft.

C. A. Ehrhart has sold to James T. Hale of Deerwood for \$1,900 the southeast quarter of the northeast quarter, the northeast quarter of the southeast quarter of section 8, township 136, range 26; the west half of the southwest quarter and the southwest quarter of the northwest quarter of section 9, township 136, range 26.

B. W. How has conveyed to Sarah T. Parsons an undivided 3-80 interests of the southwest quarter of section 23, township 47, range 29; an undivided 11-400 of lot 1 of section 9, township 47, range 29 and the north half of the northwest quarter of section 35, township 47, range 29.

P. A. Gough, of Deerwood, has sold to the Gopher Iron Co. of St. Paul an undivided 7-128 interest in the northwest quarter of the southwest quarter and the west half of the southeast quarter and the northwest quarter of section 9, township 45, range 28, also an undivided 7-128 interest in the minerals in the southwest quarter of the southwest quarter of the same section.

Charles R. Bruce has conveyed to B. S. Adams an undivided 1/4, to W. E. Hunt an undivided 1/4 and to C. A. Remington an undivided 1/4 interest in the northeast quarter of the northwest quarter, less right of way, the southeast quarter of the northwest quarter and lots 3 and 4 in section 27, township 134, range 28.

## Athena Underwear

For Women, Misses, and Children is Tailored to Fit Without Stretching

How many women would accept a tailored suit which depends for its fit, over the bust and the hips, upon the elasticity of its materials? Yet there are scores of brands of knit underwear which depend almost entirely upon the elasticity of the fabric for a semblance of shapeliness.

Athena Underwear on the contrary is cut to fit, tailored to fit, and actually and truthfully does fit without stretching.

**The Patent-Fitted Seat**—The most notable improvement ever made in underwear designing, being so shaped that it clings snugly to the figure in any posture.

**The Three-Cornered Gusset**—Relieves the strain at the thigh, giving greater comfort and longer wear.

**The Perfected Shoulder Stay**—Keeps the garment from stretching down over the shoulder and holds the sleeve in place.

**The Fitted Shoulder and Sleeve**—Give the natural form to the bust and the proper tapering to the back.

**The Extra Elastic Cuff**—Holds the sleeve in place and keeps it from slipping up on the arm.

**Shaping and Sizing**—Giving Athena garments the actual body lines and proportions, and affording sizes that will fit with tailored precision.

Exploration Work Near Brainerd Given Impetus—Range Shipments at Least 900,000 Tons

Attention continues to be centered on the south range of the Cuyuna iron range. Shipments from the Barrows mine of the Virginia Ore Mining Co., of the M. A. Hanna Co. now total 24 cars. Ore from the drill records gave 55 per cent averages while the mining shows the ore to run 59 per cent and better. J. D. Ireland, general manager of the M. A. Hanna Co., R. S. Walker, chief mechanical engineer of Duluth and C. E. Hendricks inspected the mine on Wednesday and were well satisfied with the progress made under the direction of the superintendent, W. J. Nicholas. The loading of ore was first commenced on September 27. About 200 tons a day are being hoisted from the shaft. The Prescott triple expansion pump of 3,000 gallons capacity will be in operation in the next three or four days. The laundry is well under way and will be completed in about ten days. When finished, the old laundry will be removed from the Northern Pacific railway right of way and the watchman patrolling the tracks will be called in.

On the day of the first shipment R. R. Wise of Brainerd and Wm. C. White of Deerwood, fee owners of the Barrows mine, tendered the mining officials a banquet at the Ransford hotel. Supt. Nicholas, Capt. Tallon and Messrs. Clark, McGee and Richards were the guests of honor. Supt. Nicholas was asked to make a short address and he stated that the cooperation of the men had made it possible for him to free from water a mine which had been drowned for four months. In 14 days after the time Supt. Nicholas took hold of the Barrows mine the water was out of the shaft and mining had been resumed, and he had used nothing but the old equipment and a big road engine that the Northern Pacific railway loaned him to keep up steam of his feed water pumps.

The Shenango Furnace Co. people had representatives on the grounds at Barrows this week inspecting their holdings in section 16 near the Northern Pacific railway depot. It is rumored that the company will start sinking a shaft at the southeast village limits of Barrows.

The Brainerd-Cuyuna Mining Co. shaft in Brainerd is now down 30 feet. A 150 horsepower boiler was unloaded Thursday. The foundation for the engine house has been completed and work started on the structure. In 30 days Capt. Martin will have steam up and the whistle blowing. The crew of nine will be largely increased next month. Citizens of Brainerd are subscribing liberally to stock.

The Northwestern Iron & Land Co., of which Erick Kronberg is president, George H. Gardner secretary-treasurer and H. H. Baker vice president, has lands on the north and south ranges. A drill will soon be placed on the south range in Oak Lawn township east of Brainerd.

Erick Kronberg and John A. Erickson, chairman of the board of county commissioners, have large holdings on the south range and are expected to have some of their lands explored under lease.

A line of attraction has been found to extend over section 18, township 44, range 30 on lands owned by William Gildart and John A. Hoffbauer on the south range. It is understood that several owners of small tracts will combine and have four ten-acre tracts near Brainerd explored.

The Cuyuna Range addition lying east of the Northern Pacific railway shops is to be drilled. On the north range the Rogers, Brown Ore Co. and the majority of the mining companies have availed themselves of the workmens' compensation act.

The total shipments of the Rogers, Brown Ore Co. properties for 1913 will total over 600,000 tons, said Supt. H. J. Kruse, of Crosby, and he estimates the total Cuyuna range shipments for the year to be well up to 900,000 tons.

The Armour No. 2 mine at Crosby is stockpiling and may ship some more before the season closes. They are hoisting on an average 1,000 tons daily.

The Kennedy mine at Cuyuna is shipping from the shaft and hoisting about 1,000 tons daily. Capt. Wm. Treloar, formerly with the Armour No. 1 at Crosby, is now in charge of the Adams mine at Oreland. The Adams mine has all its machinery installed and after doing some more drifting will be able to hoist and may make small shipments before the season closes. The mine will stockpile in the winter.

The Inland Steel Co. Thompson mine is stripping with two shovels, a day and night crew operating. From estimates made by mining men, it is believed the Thompson shipped between 35,000 and 40,000 tons this season.

The Meacham is expected to enter the shipping lists next season. The mine has never been worked and water was allowed to fill the shaft un-

## 200 LOSE LIVES IN BURNING LINER

Special to Dispatch:

New York, Oct. 11.—Facing fire and a ranging storm in mid-Atlantic Thursday, the liner Voltorno was destroyed on her voyage from Rotterdam to New York with a loss of more than 200 lives. Again the wireless played a leading part in this drama of the sea. By its means and through the heroism of the crews of ten vessels who responded to the call, the lives of 521 of those on board were saved.

til mining conditions were more suitable and the ground was better drained.

The total shipments of the Pennington pit mine west of Ironton and Crosby will run close to 100,000 tons this season. Stripping has been nearly finished, the shovel being engaged in this work and one shovel being in the ore. It is expected that some stripping will be done in the winter.

The Rowe mine will strip in the winter and in 1914 will ship an enormous tonnage, enough to keep two blast furnaces in Pittsburgh busy. It is expected that there will be a cut in ore prices in 1914.

The Rogers, Brown Ore Co. will in the next few days make its contracts for next season's delivery.

The Federal property at Cuyuna will soon have a shaft sunk on it by the Cuyuna-Duluth Iron Co.

The Cuyuna-Mille Lacs mine is filling its 10,000 tons order for the Cleveland-Cliffs company. The mine is working well and steps are being taken to increase its production.

The Cuyuna-Duluth mine at Ironton is shipping constantly and working well, no water or other trouble bothering them. E. J. W. Donahue says the mine company had been approached on the subject of converting their underground mine to a pit mine, but doubted if such a course would be pursued.

The Duluth-Brainerd mine has its boiler in position and shaft-sinking is well under way. The Northern Pacific railway will soon build a line to the property, being an extension from the Cuyuna-Mille Lacs mine.

The Northern Pacific railway is getting active in railway building on the north and south ranges and shows the commendable disposition of meeting mine operators half way and putting in a line to assist them at the very start of mine operations.

In the way of transfers, twenty quitclaims were filed conveying twenty-fourth and some twelfth interests in the east half of the northeast quarter of section 6, township 133, range 28 to the Northwestern Cuyuna Mining Co., the grantors being Charles Anderson, August Anderson, Neil Anderson, Ole Bergstrom, Erick Carlson, John Colbroth, G. T. Easing, Carl A. Erickson, C. J. Evensta, Alex Jensen, F. A. Kemp, Charles A. Langan, George R. Laybourn of Duluth, Charles P. Meyers of Duluth, Terrence F. Naughton, Henry Nelson, John O. Martin, Chas. C. Jones, Iver M. Olson, E. J. Rourke, Jacob Stein and Harvey Toft.

C. A. Ehrhart has sold to James T. Hale of Deerwood for \$1,900 the southeast quarter of the northeast quarter, the northeast quarter of the southeast quarter of section 8, township 136, range 26; the west half of the southwest quarter and the southwest quarter of the northwest quarter of section 9, township 136, range 26.

B. W. How has conveyed to Sarah T. Parsons an undivided 3-80 interests of the southwest quarter of section 23, township 47, range 29; an undivided 11-400 of lot 1 of section 9, township 47, range 29 and the north half of the northwest quarter of section 35, township 47, range 29.

P. A. Gough, of Deerwood, has sold to the Gopher Iron Co. of St. Paul an undivided 7-128 interest in the northwest quarter of the southwest quarter and the west half of the southeast quarter and the northwest quarter of section 9, township 48, range 28, also an undivided 7-128 interest in the minerals in the southwest quarter of the southwest quarter of the same section.

Charles R. Bruce has conveyed to B. S. Adams an undivided ¼, to W. E. Hunt an undivided ¼ and to C. A. Remington an undivided ¼ interest in the northeast quarter of the northwest quarter, less right of way, the southeast quarter of the northwest quarter and lots 3 and 4 in section 27, township 134, range 28.

### Women Who Get Dizzy

Every woman who is troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so and they have done me a world of good." Just try them, 50c. and \$1 at all druggists or by mail. H. E. Bucklen & Co., Philadelphia or St. Louis.—Advt.

## Athena Underwear

For Women, Misses, and Children is Tailored to Fit Without Stretching

How many women would accept a tailored suit which depends for its fit, over the bust and the hips, upon the elasticity of its materials? Yet there are scores of brands of knit underwear which depend almost entirely upon the elasticity of the fabric for a semblance of shapeliness.

Athena Underwear on the contrary is cut to fit, tailored to fit, and actually and truthfully does fit without stretching.

**The Patent-Fitted Seat**—The most notable improvement ever made in underwear designing, being so shaped that it clings snugly to the figure in any posture.

**The Three-Cornered Gusset**—Relieves the strain at the thigh, giving greater comfort and longer wear.

**The Perfected Shoulder Stay**—Keeps the garment from stretching down over the shoulder and holds the sleeve in place.

**The Fitted Shoulder and Sleeve**—Give the natural form to the bust and the proper tapering to the back.

**The Extra Elastic Cuff**—Holds the sleeve in place and keeps it from slipping up on the arm.

**Shaping and Sizing**—Giving Athena garments the actual body lines and proportions, and affording sizes that will fit with tailored precision.

wrote that, October 10, 1913, Mr. Bruce confesses the errors of his judgment and puts those aforesaid three or four columns plumb full of Bush praise. And he admits that the Dispatch forecast was correct. Here is Bruce's sporting editorial from the Duluth Herald of October 10:

"This will be one glorious day for Brother Hoffbauer. It is easy to be the press agent for a man who has taken fame by the neck and conquered. But when one is comparatively obscure and almost unheard of, then do the labors and the difficulties of the press agent increase.

"When Leslie Bush was in the Union league and when he first went to the Philadelphia team Hoffbauer was the rare and trusting optimist who presaged the wonders that were to come later. Right off the bat he predicted for the product of the lot of Brainerd a high place with Plank, Bender and Coombs. And now the predictions of the scribe of the town that has the honor of producing the second great pitcher for the same great team, has come to be true.

"Brainerd has good reason to be proud of the great kid. Yesterday while all the baseball world looked on, the pitcher whom the most astute of the critics believed would cave under the attack of the Giants, came through and pitched a masterly game. In the quality of his heaving he surpassed the wonderful Indian and the veteran and the marvelous Plank. And this from the youngster

that practically all the critics believed was too raw, too inexperienced and too young to stand the gaff of a world's series encounter."

And regarding the Walter Johnson prediction. Hugh Fullerton says Bush is next to Johnson in speed.

## Do You Love Violets?

Do you love to gather them, to bury your face in the mass of their sun-kissed petals—to revel in their fragrance?

Then why not carry with you everywhere the soft fragrance of choicest fresh-cut violets? You can, by using for all your toilet needs—perfume, talcum, cold cream, soap, sachet—the dainty.

## Violet Dulce Perfume and Toilet Preparations

In the south of France, near the border of Italy, there springs in early January the Parma Violet, one of the finest and sweetest that blows. It is loveliest in the shade of the olive trees. The peasants who gather this violet for us go out soon after midnight to pluck it while it is still wet with dew. Before dawn, tons upon tons of these violets are heaped up in the stilleries. By noon they have been converted into the concentrated essence that comes over the seas to us.

To make an ounce of this essence, upon which our Violet Dulce is based, two tons of violets are used.

Violet Dulce Toilet Goods are sold to you under our positive guarantee that if you do not find them entirely satisfactory, you can have your money back. This guarantee is good in any Rexall Store, of which there are more than 7,000, one leading druggist in each important city and town in the United States, Canada and Great Britain. By their co-operative manufacturing and distributing arrangement, these stores can give you the advantage of very moderate prices on Violet Dulce Toilet Goods, as will be seen from the following list:

### 10 CENT "CASCARETS" IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World —Work While You Sleep

Get a 10-cent box. Put aside—just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Bilioussness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them.—Adv

## Do You Love Violets?

Do you love to gather them, to bury your face in the mass of their sun-kissed petals—to revel in their fragrance?

Then why not carry with you everywhere the soft fragrance of choice fresh-cut violets? You can, by using for all your toilet needs—perfume, talcum, cold cream, soap, sachet—the dainty.

## Violet Dulce Perfume and Toilet Preparations

In the south of France, near the border of Italy, there springs in early January the Parma Violet, one of the finest and sweetest that blows. It is loveliest in the shade of the olive trees. The peasants who gather this violet for us go out soon after midnight to pluck it while it is still wet with dew. Before dawn, tons upon tons of these violets are heaped up in the distilleries. By noon they have been converted into the concentrated essence that comes over the seas to us.

To make an ounce of this essence, upon which our Violet Dulce is based, two tons of violets are used.

Violet Dulce Toilet Goods are sold to you under our positive guarantee that if you do not find them entirely satisfactory, you can have your money back. This guarantee is good in any Rexall Store, of which there are more than 7,000, one leading druggist in each important city and town in the United States, Canada and Great Britain. By their co-operative manufacturing and distributing arrangement, these stores can give you the advantage of very moderate prices on Violet Dulce Toilet Goods, as will be seen from the following list:

Violet Dulce Talcum Powder.....	25c
Violet Dulce Toilet Water.....	75c and \$1.25
Violet Dulce Extract—the ounce.....	50c
Violet Dulce Complexion Powder.....	50c

**America Leads the World**

America has more telephones than all other nations of the earth.

Of the 22 billion telephone talks a year in the world, 15 billion are made in the United States; 8 million of 12 million telephones are here.

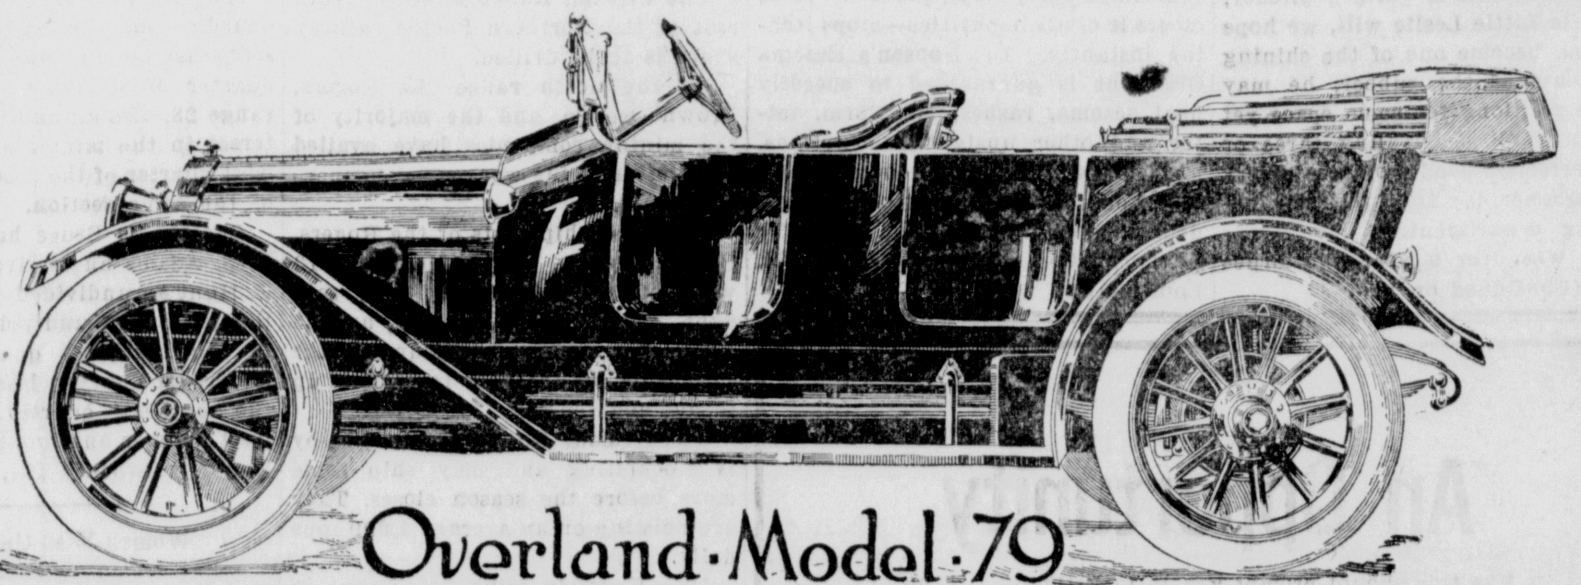

In America the various Bell Telephone Companies operate under one policy, as one system, giving universal service.

Long Distance Bell Telephone Lines Reach Nearly Everywhere.
